Independent Thinker's - 9/11 Fact Sheet

What occurred on 9/11 is a matter of **facts, physics & unprecedented violations of national protocol by American officials**. Here're 10 **points** - There're 100s more.

1. No steel-framed building before or since 9/11 has ever collapsed due to fire.
2. No official agency (FAA, FBI, or the airlines) has ever released a list of the **9/11 passengers**. But within hours, the FBI released a list of the hijackers.
3. On Sept. 11th, 2001 the FAA successfully grounded all aircraft—an unprecedented operation. Yet it could not successfully scramble any jet fighters that day—a **normal** procedure occurring over **100 times a year**.
4. Building 7, a **47-story skyscraper** and part of the World Trade Center complex, was not struck by a plane but collapsed in **6.5 seconds** at 5:20 p.m. on September 11th, in the exact manner of a controlled demolition.
5. There was **no visible airplane debris where Flight 93** supposedly crashed in Pennsylvania—only a smoking hole in the ground, much like a bomb crater.

6. Office fires burn at low temperatures of 600-800 dF. Steel melts at 2750 dF. Jet fuel is an ordinary hydrocarbon; its maximal burning temperature is 1200 dF in open air. **Neither jet fuel nor the burning contents of the buildings could have caused the towers' steel structure to buckle or fail.**

7. Tests have shown that **cell-phone calls cannot be made at altitudes** over 4000 to 8000 feet, as cell towers are located on the ground. Commercial airplanes fly at 30,000 feet and above. No passenger could have successfully placed a call for help by cell phone from an airborne plane on 9/11, as reported.

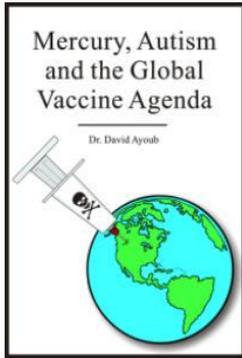

8. 9/11 was immediately declared an **“act of war” by President Bush**. The **rubble** from Ground Zero was **carted away** and the steel sold off **without examination**.

9. **Enormous profits** were made by insiders on plummeting stock prices of the two airlines involved in 9/11—American and United. Federal law protects their identities.

10. Accepting victims' **compensation barred** 9/11 families from further **discovery** through litigation.

Vaccines

Fact Sheet

from VacLib.org &
AvatarProducts.com

Modern medicine tells us we must vaccinate our children. Vaccines are developed for adults. Most of us believe these injections are "insurance policy our health."

The reality is that vaccinations have never - in all of **history -- diminished the incidence disease.** Here're 10 **facts you should know.**

- 1. Vaccines** are made from **live pathogens** grown (or cultured) **in animal blood**, animal tissue, chicken embryos and aborted human fetal cells.
- 2.** Vaccine cultures are preserved with neurotoxins such as **mercury** (thimerosal), formaldehyde, phenol, **aluminum** and MSG. These toxic mixtures are directly injected into babies, children and adults, bypassing the body's built-in filters (cilia, tonsils, skin).
- 3.** Childhood vaccinations are the first assault on the normal functioning of the body, creating **neurological damage** and **debilitating the immune system.**

4. Today's children are routinely vaccinated by pediatricians performing what they believe to be "preventive" medicine. **By age six**, most children have been exposed to more than **100 viral strains.**

5. Vaccines are frequently administered in **combination**, as in measles/mumps/rubella (MMR). In nature itself one would never encounter this type of multiple viral load.

6. With **repeated injections**, the damage caused by vaccines can lead to **developmental problems, auto-immune disease**, sudden infant death (SIDS), **autism** and more.

7. One **out of five** American **children** now has "**special needs.**" These include learning disabilities, attention-deficit disorders and behavioral issues, creating a whole new market for certain kinds of prescription drugs.

8. Contrary to popular belief, **parents are not legally obligated to vaccinate their children.** Most states allow exemptions for medical, religious or philosophical reasons. (Check your own state's laws.)

9. Plagues such as smallpox and polio were never eradicated by vaccines. Smallpox declined with improved sanitation, and polio persists under many new names.

10. The United States vaccinates more than any other country. Beware of future "pandemics" and **federal imposition of mandatory vaccinations.**

"Chem Trails" Fact Sheet

Have you noticed airplanes leaving white plumes in the sky? Often in grids, these trails widen and spread out, forming layers that look like clouds. Soon the sky is overcast. Here are 10 points to consider about this phenomenon:

The Independent Thinker's

1. Current U.S. Senate bills are seeking to pass weather modification and weather experimentation policies to engineer and control our atmosphere.
2. The jets that spray aerosols in the sky have been seen all over the world. No governments or official agencies have been willing to discuss this activity.
3. The content of the sprays includes fibers, metal particulates and biological elements (including fungi), many of which are microscopic. These micro-particles enter our bodies, eluding our immune systems and impairing our health. Some of the particles are artificially engineered and self-replicating..

4. The metals in the **sprays** are ionized (**electrically charged**). The air we live in is now a plasma-able to conduct energy. It has been **weaponized**.

5. The **spraying** has saturated our atmosphere with particulate matter that has **whitened** our once-**blue sky**. **Visibility** on the earth has been greatly **reduced**. A direct, data-based correlation exists between **particulate levels** in the air and our **mortality**.

6. Dangerous levels of **aluminum** and **barium** have been found in **soil** and **water** samples nationwide. Both elements are highly toxic. Our rate of respiratory illness, allergies, **Alzheimer's and cancer has risen exponentially** since the spraying was intensified in 1998.

7. The **spraying** is a **global covert operation**. It is capable of **engineering and controlling storms**, planetary moisture and the earth's electrical balance. It can manipulate radio frequencies and the electromagnetic spectrum for military and surveillance purposes. It can alter human awareness and behavior.

8. The spraying typically creates cloud-like masses that spread to form a "sky shield." This **sky shield is responsible for "global dimming,"** now being presented as an antidote to global warming. According to NASA, the world has already seen a

20% loss of sunlight.

9. **HAARP** (High Frequency Active Auroral Research Program) is a **military surveillance** operation that generates electromagnetic frequencies. The combination of HAARP activity and the **atmospheric spraying** may be producing "**climate change**," a phenomenon blamed on nature's response to "runaway global warming." Our **environment is deliberately being altered**.

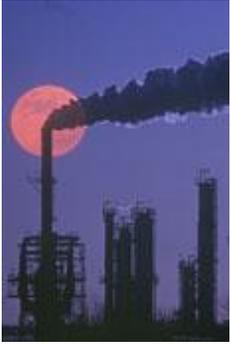

10. 10. These programs are operating without our informed consent. Their agenda may be the total control of biology, ecology and the earth. To this end, our "destructive" human ways (burning fossil fuels and overpopulation) may become the pretext to re-engineer nature as a means toward planetary "sustainability." **Look up! Global Warming

Fact Sheet Major media, governments and environmental groups are pushing for global protocols to address rising CO2 levels that are said to be causing worldwide "climate change." Al Gore's Oscar-winning film **An Inconvenient Truth**" depicted a

terrifying future resulting from **man-made global warming**. More than **30,000 scientists** around the world **disagree with Al Gore**. **Here are 10 facts you should know:**

1. Global warming is attributed to rising levels of CO₂ (a greenhouse gas) in the atmosphere, in turn being attributed to industry and the burning of fossil fuels. Yet greenhouse gases have always surrounded the earth. The main component of greenhouse gas today is water vapor, accounting for 65-85%.
2. **CO₂** is not a pollutant. It is in fact **essential to life** and comprises only 2% of greenhouse gas. Of the **210 billion** tons of CO₂ released each year from the earth into its atmosphere, humans contribute a mere **6.3 billion** tons - less than 1 % (of the 2%).

3. The earth's average atmospheric temperature has risen and fallen throughout time. It was much **warmer 7,000 years ago** than it is today. Even 800 years ago, portions of ice-covered Greenland were fertile and being farmed by the Vikings (hence its name).
4. Climate scientists and biologists concur that **solar activity** (e.g. solar flares) occurring between 1975 and 1998 is most likely the reason that the earth experienced a recent warming trend.
5. In the 1970s, our media was reporting a threat of global cooling and an oncoming ice age. In the 1980s, average global temperatures rose slightly. By 1998, another cooling period had set in. We are now in a phase of global *cooling*, not global warming.
6. 1934 was the hottest year in 120 years, followed by 1998, then 1921, 2006 and 1933. Three of the five hottest years in over a century were in the 1920s and 1930s, when man-made CO₂ was not at current levels.
7. Warmer temperatures of cities compared to surrounding countryside have to do with **land use** (the presence of concrete, asphalt, glass and metal buildings) - not automobile exhaust, industry, or CO₂.
8. The documentary "An **Inconvenient Truth**" showed CO₂ and temperature graphs that led

audiences to believe that as CO₂ rises, so do global temperatures. But when these graphs are juxtaposed instead of being separated, it is clear that

temperature rises first and CO₂ follows. In fact, temperature leads CO₂ by about 600 years.

9. The warmer the ambient temperature, the more things grow. Plants and vegetation need CO₂ to survive, and also release CO₂. As oceans warm, they give off CO₂. Thus, warmer global temperatures are followed by an increase in plant life and a rise in CO₂.

10. Man-made global warming is said to be causing "climate change." However, the earth's climate is a natural and fluid aspect of its physics and environment. Climate is not static and will always be subject to variability.

Independent Thinker's Income Tax Fact Sheet

Each year, millions of Americans report their earnings to the IRS, allowing a significant portion of their wealth to be claimed by the government. Yet the law itself stipulates that **taxis only to be paid on a certain kind of**

income - a truth about which most Americans remain blissfully unaware. Here are 10 facts you should know.

1. The income tax is an excise tax, not a *direct* tax. It applies only to revenue in which the federal government has a direct ownership interest.
2. What is called "income" by the Internal Revenue Code is not "money" or "receipts" or "earnings." It is defined as *receipts resulting from the exercise of federal privilege*. Are you doing business with or are you paid by the federal government?
3. The income tax was instituted in 1862. The 16th Amendment (1913) did not expand the scope or definition of taxable "income." Until the 1940s, only

about 4% of Americans (those who worked for or were involved with the federal government) paid annual income tax.

4. During WWII, the government called for Americans to pay income tax as support for the war effort. Patriotically, a large number of citizens complied.
5. The Internal Revenue Code grew to more than 3 million words. A wage-withholding program was instituted and thousands of professionals now help Americans prepare their tax returns.
6. Each year, millions of W-2 and 1099 reports are issued for "wages" or "non-employee compensation" by payers who do not understand that *these forms are intended for federal entities making federally connected payments*. W-2 and 1099 forms serve as legal testimony and, without rebuttal, make the named individuals liable for an "income" tax.
7. The "Form 1040 U.S. Individual Income Tax Return" is intended as a way for individuals to correct information "testimony" made about them by others. Americans have until April 15th of each year to correct their record. Not filing a tax return waives your right to properly report your "income."
8. While Congress cannot take your money directly, it

has created a tax code that is convoluted enough to deceive most people. "Income," "wages," "employee," "employer" and "trade or business" are all specifically defined in the Code, yet most of us interpret these words in a common or everyday way.

9. Once a return (1040 Form) is filed, it is legally valid and answers the question of whether or not you were engaged in taxable activities for that year. It is the means - provided by law - for YOU to set the record straight.

10. The U.S. tax system is based on individual self-assessment and voluntary compliance. The government will accept your money unless you inform it every year that you are entitled to non-payment or to a refund of what you have paid.

Most Americans are woefully uninformed about the nature of who is to pay income tax. Reporting "income" and deducting "expenses" is the only relief available to many, even with the help of trained professionals, all of whom operate under the same misconceptions.

Common misunderstandings

- *There is no law that says I have to pay income tax*
- *The 16th Amendment was never ratified*
- *Filing a tax return makes me part of "the system"*

- *It's better to pay my taxes and stay out of trouble*

FACT... Only a certain kind of "income" is taxable. The U.S. Constitution denies the government the right to tax a person's exercise of the fundamental individual right to work or trade. Although many people believe the "income" tax is unconstitutional, they do not understand how the imposition of this tax has become legal. The good news is that the Internal Revenue Code *provides you a way to declare your freedom from income tax each and every year.*

"Cracking the Code The Fascinating Truth About Taxatic by Pete Hendrickson

Join thousands of Americans who have unchained themselves from a pervasive system that feeds on their ignorance.

"CRACKING THE CODE" is a book that explains this simple and lawful process.

It has enabled those who have read it to demand their money back from the IRS.

News is Not True - Fact Sheet

You can learn of the deeper truths if you want to.

National magazines, DVD video, news articles, web sites show the clear, logical, public records that confirm the naked

truth. Popular opinion has been sold out to the corporations that own the news.

JFK Assassination: 1976 House Committee Investigations of assassinations determined that trained sharp shooters could not hit a target at the size & distances of Kennedy's motorcade.

All **12 Parkland medical doctors**, interview privately, all said clearly that Kennedy's wound entered at the neck and blew off a large piece of the back of his head. Bethesda autopsy team prepared drawings only for Warren Report that **did not show similar wounds**.

2 Caskets, 1 ornate flew in Air Force One, a separate plain casket carrying Kennedy's body to

Bethesda Medical Ctr. arrived about ½ hour before the ornate one, into which the body was transferred before bringing into autopsy team – from research book, from news releases.

12 separate films. Taken by individuals in the Dealey Plaza showed the crowd rushed towards the grassy knoll after the shooting, to the place where he shots were fired.

View a good quality copy of the Zapruder film, like in the JFK movie by Oliver Stone, to see clearly that Kennedy's head jumped back and to the left from the impact of a bullet fired from in front of the limo, not from Oswald behind & above.

Life Magazine immediately purchased the Zapruder film, then **sealed** it's content **from public view for years**, while printing individual images in different order to begin the lie published in the magazine.

Many bullets were found, on the curb, thru the windshield, and thru Kennedy's body & Gov. Connally's body. Far more than the **supposed 3 shots from Oswald in the 7 second** period of shooting as measured from tape of mike from police motor cycle near Kennedy. Supposedly the bullet that changed directions many times and went thru both Kennedy & Connally was **found undamaged** on a stretcher in the hospital.

Further evidence; Video interview with **LBJ's mistress** notes he was bragging that **Kennedy would be killed** the night before the event. Oswald's mistress, developed an injection to cause people to die from cancer, intended for Castro, but possibly used on Jack Ruby. She reports of Oswald's activities prior to the event.

Oswald was a part of a **National Guard Unit in New Orleans** that also had Barry Seals, who because big drug dealer for CIA, flying drugs & guns in & out of Mena AK for the Iran contra affair. Google Clinton CIA Mena (small town w/ airport)

Jack Ruby was on Nixon's staff when Nixon was Senator.

Normally National Guard was engaged in additional security on location when a President toured. In Dallas, this was specifically canceled. All the normal protocol of Secret Service was reduced or changed. Police & Secrete Service that usually surround the car were pulled back. The crowd was 3 people think along most road ways, but had been cleared form the Dealy Plaza area. The 103 witness to the shooting, many reporting that the shots came form the grassy knoll, have all be killed or died strange deaths or suicides. Many offered repeatedly to testify, but were refused. Some stopped in the grassy knoll area were

neither questioned nor retained. No records were kept, they were dismissed and allowed to leave. Abundant evidence has surfaced in books & movies since event. To pursuer just some of them, you will find many consistent, overlapping facts from reputable sources, most that could have been or was known contemporary with the event, but kept from the Warren Report. The Warren Report alone offered several vital clues that most have not considered.

Truth Seekers 9-11

www.abodia.com/t T. Elden

In Feb. of **2005**, someone said what government & media said of **9-11 was not entirely true**.

Although I did not believe this tip, I

investigated. First a few hours, then 10, then 100s, and now after 1,500+ hours of research, I find & have confirmed from factual evidence, witnesses, researchers, scientists, physicists, engineers, pilots, military, government workers and media spokesmen who confirm.

9-11 was a Great Deception. It was used to lead us to war, killing millions, while the **Military Industrial Complex rakes in huge profits**, and the Halliburton, Brown & Root make untold fortunes in unfinished rebuilding efforts, all the while these private corporations are seizing treasures and oil to sell to India & Asia. None of this benefits Americans, while we lose our lives, & liberties.

Having exposed this great deception, I wondered could **apply in other areas** ? So I continued my research, collecting **Congressional Record**, Senate Investigative Reports, **Court Cases**, public records, witnesses, evidence. The findings are so huge, so diverse, so complex, I create web sites to simplify the key elements so others might be alerted.

Wake Up America. We are being deceived by those **who control our main stream news**, TV, books & movies. By controlling, limiting, suppressing real events, they control us.

A global elite, who own and control our Federal Reserve, our money system have engaged in fraud, deception and trickery to gain control over our wealth, health, safety, perception & knowledge.

While we suffer in loss of health, freedom, income, they gain in power, control, and huge profit.

I reach out to contact Truth Seekers; individuals and groups like ours across the USA to learn more and to find active ways to improve our lives.

While most people focus on daily tasks, working for their families, jobs, their immediate needs, money, rent, living expenses, **some people must watch for our communities, our future, our safety.**

Our US **President**, our **legislatures**, our courts, universities, foundations, corporations have all been **sold out to the money interest**, who persuade people to give deceptive reports so they concentrate their power in institutions, organizations so that most individuals yield to them.

Their grows daily a concentration of power in all areas; money, taxes, food, health, drugs, and more.

Elden has built a vast library to share with others where you can see convincing details of these deceptive practices lead to war, famine, recessions, loss of private property & more.

1,500+ DVDs, e-Books, articles, audio interviews; with expert documentaries from nationally recognized engineers, lawyers, physicist, that reveal the source documents, acts, **laws** that have **perverted the intent of our constitution to concentrate their wealth & power.**

Many of our leaders in government, media, universities are member of: Secret Societies, **Council of Foreign Relations, Tri Lateral Commission, Bildenbergers.** Many are **dual citizens** with Israel. Their loyalties are not to help Americans, but to speed the goals for the **New World Order**, to have one government over all people, one

religion, one currency, one court. Their loyalties are to their controllers, not to the American citizens.

When US and our citizens lose their sovereignty, it speed the **ability of unelected bureaucrats** to have **unconstitutional control over us.**

We see (only) what we know.

But you **can learn new things.** These resources will show you an on going conspiracy which we must see, understand, & spread information so we collectively can resist it. As long as we ignore it, it grows. **Evil flourishes when good men do nothing**
